PARROT

Curved beak.

Two legs with four toes, two forward and two backward.

They come in a variety of colors.

They are very good at imitating and repeating sounds.

They are usually pink, but there are also blue flamingos, because they eat blue algae.

They have two legs, but mostly stand on one leg by bending the other.

FLAMINGO

They are black and white birds, with a very sharp beak.
They usually live in very cold places, such as the snow.

PENGUIN

They are very large, black and white marine animals.

They have many teeth.

They have four fins in total.

ORCA

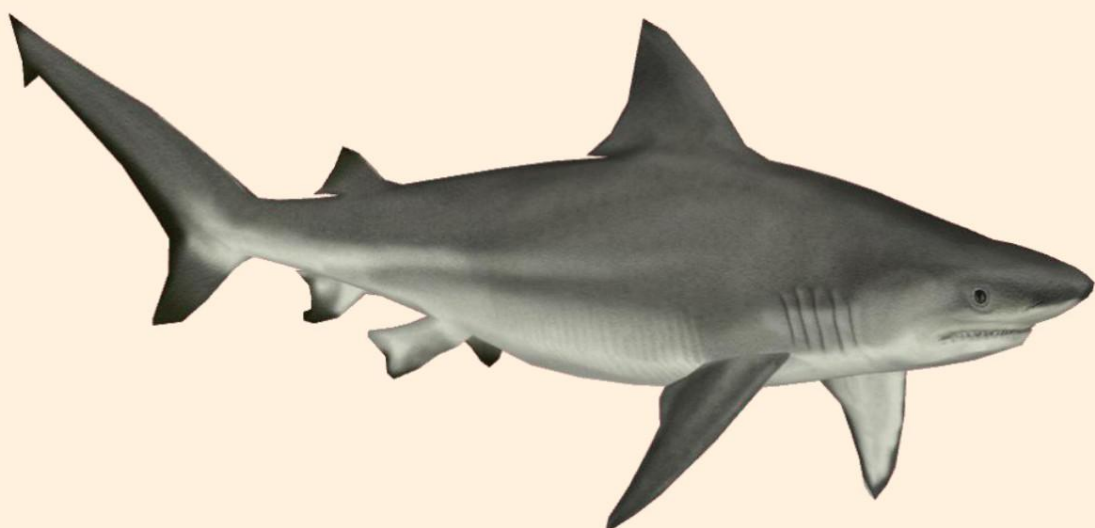

DOLPHIN

They are large grey or blue marine animals.

At Loro Parque there are 8 dolphins, whose names are:

Ilse, Luna, Clara, Pacina, Paco, Achille, Ulisse and Ebu.

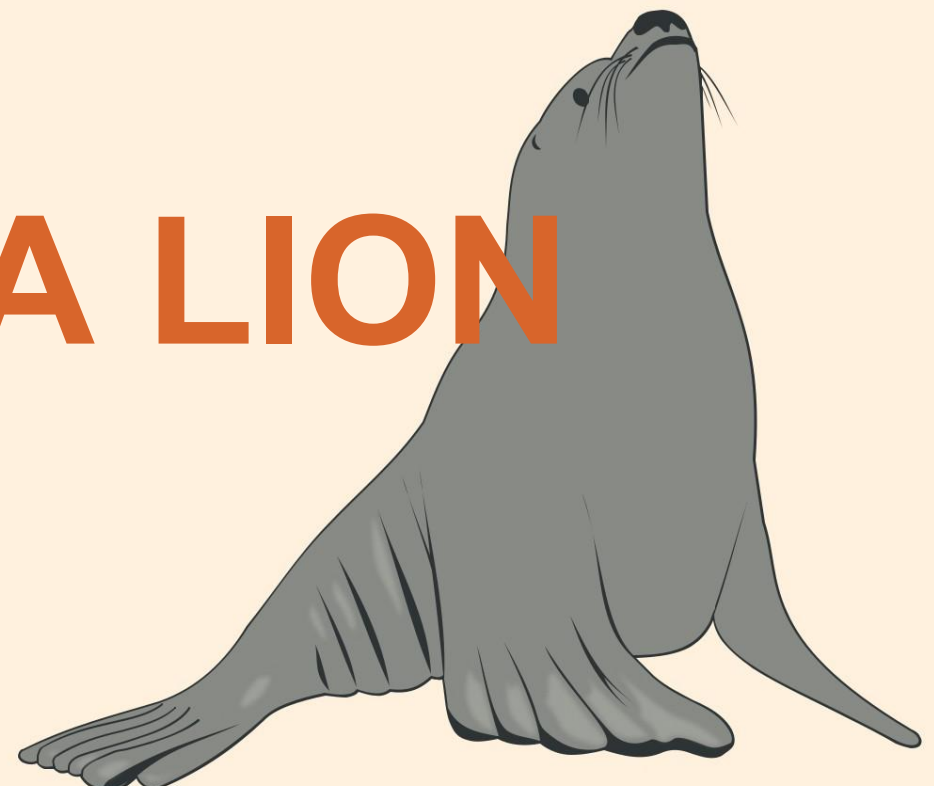

Sharks are larger fish, and have a darker grey upper body and a lighter grey lower body. They usually live in salt water, but some live in fresh water.

SHARK

They are also very intelligent, and therefore make excellent hunters.

SEA LION

They have a long body and short fins. They are also very good swimmers. They are grey in colour, and at Loro Parque there are a total of 5 sea lions.

It is well known for its long snout and its sticky tongue.
It mainly feeds on ants.
They have no teeth but a great sense of smell, especially for finding food.

anteater

They have very long nails to climb the trees where they eat and sleep for 15 hours a day. They tend to eat a lot of fruit and vegetables.

They also move very slowly, hence the name sloth.

sloth

meerkat

They are very cute with their pointy nose and light brown fur.

They eat insects and spiders.

They have four legs, but mostly stand on only two. Did you know that it is a famous animal from the Lion King movie?

otter

They are very sociable and active.

They have brown skin, a long body, and short legs.

Also, they play and live in the water.

They have a large mouth, a very wide, flat nose, and very small ears.

They usually walk on all fours.
They are very large and muscular.

gorilla Their colour is dark grey/black.

chimpanzee

They are very similar to gorillas, but smaller in size.

They are very intelligent.
And they even eat plants.

tiger

Their fur is usually black and white with black stripes.

They are very strong and powerful animals. The most striking feature of tigers is undoubtedly their large, sharp fangs. They mostly eat meat, and like hunting other animals.

They have excellent eyesight and sense of smell, even at night. They are also very powerful, intelligent, and fast hunters.

jaguar

Alligators are very similar to crocodiles in shape and colour, but are slightly smaller and have a broad, flattened snout.

They have very sharp teeth.

They are also extremely powerful and can swim very fast.

alligator

They are reptiles.

Only the head, legs, and tails of the animal can be seen, as the rest is hidden by the shell.

They tend to walk very slowly.

There are very large tortoises weighing up to 100 kilos called giant tortoises, while there are also water turtles and land turtles.
